# Warnings

## When Driving

Keep the volume level low enough to where it allows you to be aware of the road and traffic conditions.

In some countries, it's unlawful to operate a vehicle while video is displayed in the driver's viewing area. Please always switch the unit's display to "Font Type Display" mode by pressing the DISP button while driving.

For safety reason, the driver should only enjoy / watch the video while the car is in parking mode.

## When Car Washing

Do not expose the product to water or excessive moisture. This could cause electrical shorts, fire or other damage.

#### 

In order to avoid any accident, the driver must not watch video while driving. This unit is designed to not allow watching video while driving. Park your car in a safe place and engage the 'parking brake' before watching video.

## When Parked

Parking in direct sunlight can produce very high temperatures inside your vehicle. Give the interior a chance to cool down before starting playback.

## Use the Proper Power Supply

This product is designed to operate with a 12 volt DC, negative ground battery system (the regular system in a North American car).

### Protect the Disc Mechanism

Avoid inserting any foreign objects into the slot of this player. Failure to follow this may cause malfunction or permanent damage due to the precise mechanism of this unit.

### 

THIS MOBILE DVD PLAYER IS A CLASS I LASER PRODUCT. THIS UNIT USES A VISIBLE/INVISIBLE LASER BEAM WHICH COULD CAUSE HAZARDOUS RADIATION IF EXPOSED DIRECTLY. BE SURE TO OPERATE THE MOBILE DVD PLAYER CORRECTLY AS INSTRUCTED. USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OR PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.

DO NOT OPEN COVERS AND DO NOT REPAIR BY YOURSELF PLEASE REFER SERVICING TO A QUALIFIED TECHNICIAN.

NOTE:

- 1. TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS EQUIPMENT TO RAIN OR MOISTURE.
- 2. TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, AND ANNOYING INTERFERENCE, USE ONLY THE RECOMMENDED ACCESSORIES.
- 3. THIS DEVICE IS INTENDED FOR CONTINUOUS OPERATION.

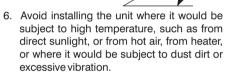

This product incorporates copyright protection technology that is protected by method claims of certain U.S. Patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless

otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

# Installation

## **A** INSTALLATION CAUTION

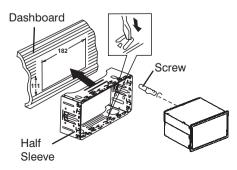

- Before finally installing the unit, connect the wiring temporarily and make sure it is all connected up properly and the unit and system work properly.
- 2. Use only the parts included with the unit to ensure proper installation. The use of unauthorized parts can cause mal functions.
- Consult with your nearest dealer if installation requires the drilling of holes or other modifications of the vehicle.
- Install the unit where it does not get in the driver's way and cannot injure the passenger if there is a sudden stop, like an emergency stop.
- 5. If installation angle exceeds 30° from horizontal, the unit might not give its optimum performance.

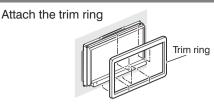

7. Be sure to remove the front panel before installing the unit.

## Installation with the half sleeve

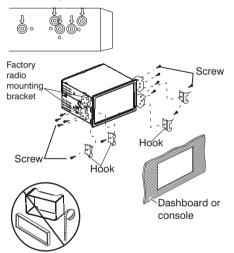

After inserting the half sleeve into the dashboard, select the appropriate tab according to the thickness of the dashboard mterial and bend them inwards to secure the holder in place.

## Installation using the screw holes on the side of the unit

Select a position where the screw holes of the bracket and the screw holes of the main unit become aligned (are fitted) and tighten the screws at 2 places on each side.

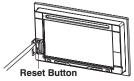

**Note:** The outer trim ring,and half-sleeve are not used for this installation.

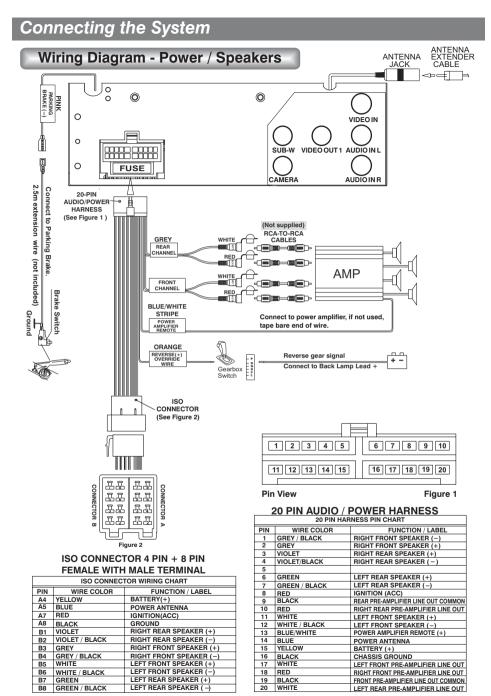

**Note:** The mounting box, metal half sleeve, hook & screws are not included in the packnig.

## RESETTING THE UNIT

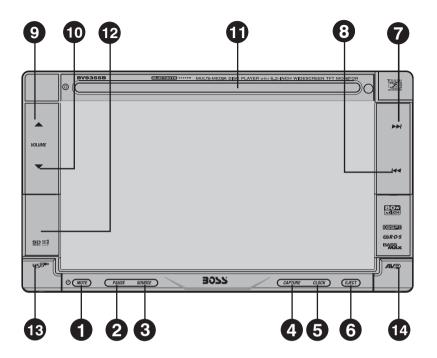

After releasing the front panel, use a stick or any non-metalic object to press & hold the reset button for five seconds to reset the unit.

AV - 1 = Front panel AV in AV - 2 = RCA back of unit

## AV -1

This unit is allowed to connect with external Audio/Video system such like Digital Camera or Game Console. User can connect the external A/V system thru the A/V in jack on front panel.

# AV-2

Connect the external signal to the RCA line in jack located at the rear of the unit, then press

button to select AV -2.

### TIPS

The below "No Video Signal " will show on the TFT as remind if there is no any external AV System input.

# About the Parking Wire

### 

In order to avoid any accident, the driver must not watch video while driving. This unit is designed to not allow watching video while driving. Park your car in a safe place and engage the parking brake before watching video.

### NOTE

The Video Blocking system under Parking Brake **NOT ENGAGED** only control this unit's display, This system will not affect the Video Output thru the rear RCA Video Output. Tips

Be sure to connect Parking Brake connection lead. ( please see more details on " Wiring Diagram.")

### NOTE

If watch moving video from Disc or AV In source but Parking Brake is **NOT PROPERLY CONNECTED**, the video signal will be blocked by the system and the below display will be show on TFT:

### About The Reverse Wire For Back Up Camera System

If user connected a back up camera system to this unit, the vehicle is in reverse Gear (Back Up mode), the front in-dash TFT display will automatically switch to Back Up Camera Video signal regardless whatever mode is currently displayed on the front indash TFT.

### Tips

Be sure to connect Reverse wire properly. (please see more details on "Wiring Diagram.")

# Wallpaper Setting

# Setting the Background Screen (Wallpaper)

This unit allows the user to change the background screen on the playback mode. This function is called wallpaper change. User can select the desire image on the below operation to set as wallpaper.

### How To Select The Image

button access

into the Image Setting mode, the below TWO location are available for images selection:

### My Gallery

There is total 10 factory default images for the user to select as wallpaper.

### TIPS

For details operation, please refer to SETUP MENU MY GALLERY.

### My Image

This stores all images capture by user on this unit.

### TIPS

For details operation, please refer to SETUP MENU\_MY IMAGE.

## Capturing Images for Wallpaper

This units allows user during video or images playback, user can capture images and store them (up to 10 images) to set as wallpaper. User also can capture an image from an Auxiliary video device if connected.

### How To Capturing Images

1. Start playing the disc, USB stick, SD card or auxiliary video device.

- Hold press the CAPTURE button for more than 3 seconds when the desired scene or image appear on the TFT screen.
- The confirmation display will appear to confirm the image is stored in to MY IMAGE.

### TIPS

Those captured images will store in the SETUP\_MY IMAGE. For details please refer to SETUP MENU\_MY IMAGE.

# How To Setting The Captured Images As Wallpaper

The captured images can be set as wallpaper on the playback mode.

### TIPS

For details setting of wallpaper, please refer to SETUP MENU\_MY IMAGE.

### NOTE

- Do not turn off the unit while storing the image.
- Stored image may differ from the original aspect ratio due to compression or elongation.

# **User Guide For Bluetooth**

- 1. When user use our Bluetooth HEAD UNIT, please make sure the mobile phone you use must / does support Bluetooth functions (Headset or Handsfree profiles or both).
- Before you start to use our Bluetooth HEAD UNIT, please make sure complete pairing with your mobile phone first. Please refer to the user manual, section "PAIRING" for detail "PAIRING" instruction. To ensure the best reception for Pairing or Re-connection, please make sure the Phone Battery is fully charged when making the Pairing or Reconnection
- Please always try pairing the Mobile Phone with Head unit after a few minutes of the Mobile Phone Switched On to ensure the best pairing result.
- 4. "BT70" is this unit device model number which is displayed on the mobile phone.
- 5. To achieve the best performance, please always keep the Mobile Phone within 3 meters of the Head unit.
- 6. Please always keep a clear path between the Mobile Phone & the Head unit.
- 7. Never put any metal object or any obstacle between the path of the Mobile Phone & the Head unit.
- Some mobile phone brands like Sony Ericsson may have "Power Saving Mode" selection when Bluetooth mode is switch on. <u>DO NOT</u> Switches ON Power saving Mode when operating with this Head Unit, as some abnormal communal behavior will happen occasionally if Power Saving Mode is switched on.
- Before user makes Outgoing call or Incoming calls, make sure the mobile phone's "Bluetooth function" is switched "ON".
- 10. To ensure the best conversation quality / performance, keep talking within 1 meter of the Head Unit.

- 11. If user want to Dis-connect the Head unit with the Mobile Phone, please switch "OFF" Bluetooth connectivity on the Mobile Phone, or go to the system menu, "disconnect" to disconnect the Bluetooth connectivity manually. (please refer to the user manual, section "dis-connection of the Bluetooth system for details instruction.)
- 12. Some Mobile Phones can support "IN BAND RING TONE", such as Nokia. In such case, the Incoming Ringing Tone will be same as the original Ring-tone of the Mobile Phone. But some Mobile Phones like Sony Ericsson do not support this feature. The Ring-tone will be using the standard Ring-tone of the Head unit.
- 13. When in telephone mode, during talking, it is highly recommended to set the volume to below "35" in order to achieve the best sound quality. As if the volume is too high, it may create unwanted echo inside the car, and this unwanted echo may feedback into the microphone.
- 14. If the Bluetooth related operation is not performing normally, like cannot make pairing, cannot making an outgoing call, the user can try to make a SOFT-RESET of the Bluetooth module by removing / detaching the panel from the main unit and waiting for about 1 min. Then re-attach the panel to the unit & retry the Bluetooth operation again. Or user can RESET the whole unit by pressing the RESET button behind the panel.

### NOTE

By pressing the RESET button all the stored memory will resume to factory default.

# **Handsfree Operation**

## Pairing, Connecting And Deleting With A Bluetooth Device

When connecting Bluetooth devices at the first time with this unit, a mutual registration is required, this is called "Pairing". This registration (Pairing) is required only at the first time, as this unit and the other devices will recognize each other automatically from the next time.

After the devices are registered (Paired) with this unit. User can select the registered device and connect it, this is called "Connecting".

### TIPS

- This unit can Pair up to 8 devices with Handsfree and / or Audio Devices.
- If the pairing Bluetooth device has both HFP (Handsfree Profile) and A2DP (Advance Audio Distribution Profile). This unit will automatically pairing these two profiles at the same time.

### Searching available Bluetooth Devices for Pairing "from this unit".

1. Access into the SETUP MENU, and touch to activate the Pairing procedure.

#### NOTE

Please see SETUP MENU Operation for more details of how to access into Bluetooth Menu – Pairing mode.

2. Tap to activate the searching pairing device mode.

### NOTE

- Please make sure to check the pairing Bluetooth device, make sure the Bluetooth mode is turned ON and the "VISIBILITY" is set to "SHOW".
- Stored image may differ from the original aspect ratio due to compression or elongation.

- 3. When searching is completed, the detected device name(s) will be displayed in a list.
- Tap the device name you want to be connected/paired with the selected device in the list.
- Password input: user can input minimum 1 & up to maximum 4 of any numeric number between 0 to 9, as the password for this unit.
- 6. Tap button on display to confirm the password input, and the Pairing process should start.
- "BT70" should appear on the pairing device, user should select & accept pair with "BT70" and then input the same password which was input on this unit previously on above step 6.

### NOTE

Please refer to the instruction manual of the Bluetooth device on how to enter into the Bluetooth set up and Bluetooth pairing.

8. If the pairing is successful, the below display will be show on TFT:

If the pairing failed, the below display will be show on TFT for 3 seconds:

Paired Failed !				
×				
Nokia 6230i				
ţ				

and the unit will automatically switch back to the previous mode.

### NOTE

During Pairing, only the Volume & Mute buttons are functional, all the other function keys are disabled & non-operational during the pairing mode.

### Pairing The Bluetooth System Between Mobile Phone & The Unit

- 1. Open your Mobile Phone and switch Bluetooth to on, and search Bluetooth device.
- "BT70" should appear in the pairing list on the Mobile Phone. User need to select "BT70" and then input the password "0000", the below display will be show on TFT:

connect.

button to confirmed the

.

3. If the pairing is successful, the below display will be flashing on the TFT for 3 seconds. And the unit will switch back to the previous mode automatically.

If the pairing failed, the below display will be show on TFT:

## NOTE

During Pairing, only Power/Mute, Volume Knob are functional, all the other function keys are disabled & non-operational during the pairing mode.

### Disconnecting of the Bluetooth System

User can disconnect the connected Bluetooth device as follows:

- 1. Access into the SETUP MENU of Bluetooth Menu\_Paired (Handfree).
- 2. Tap button access into the HandFree Device list.
- 3. Tap DISCONNECT button to disconnect this device, and the below display will be sholw on TFT:

Disconnect
6230i
Yes No

Yes button to confirmed the

disconnect.

Tap

3. If the disconnection is successful, the below display will be show on the TFT:

### Deleting

User can delete a paired device if it is no longer needed as follows:

- 1. Access into the SETUP MENU of Bluetooth Menu\_Paired (Handfree).
- 2. Tap button access into the HandFree Device list.
- 3. Tap **DELETE** button to Delete the device, and the below display will be sholw on TFT:

button to confirmed the

selection to delete.

3. If the delete is successful, the below display will be show on the TFT.

# **INCOMING CALL**

## Answering An Incoming Call

1. When there is an incoming call, the below display will be show on TFT:

2. If the incoming call has no caller I.D. number, the display will show UNKNOW. user can tap the button to answer / accept the call.

### NOTE

The audio output of the present mode will be muted and the ringing tone will be heard if an incoming call is not being answered.

3. User can use the Volume Up / Down to adjust the volume level.

4. To end the conversation, tap

button. The unit will switch back to the previous mode automatically and release the mute of the previous mode at the same time.

#### NOTE

An Incoming call under stand by mode (Ignition on & Power Off), the system will automatically switch on the head unit.

### Rejecting An Incoming Call

User can tap incoming call. button to reject the

### NOTE

The audio output of the present mode will be muted and the ringing tones will be heard if an incoming call is not being answered. After tapping the button, the mute of the present mode will be released.

# **OUTGOING CALL**

### Making An Outgoing Call

button on display enter 1. User can tap into the dial and make an outgoing call.

### NOTE

User also can use his/her Mobile Phone to dial and make an outgoing call.

 Once the phone number has been entered completely, tap button to start dialing the call, and the below display will show on the TFT:

- 3. User can use the Encoder Volume Knob to adjust the volume level.
- 4. Tap button on display to end the conversation. The unit will switch back to the previous mode automatically. The mute of the previous mode will be released at the same time.
- 5. During talking mode, if the Ignition is being turned off, the unit will keep the conversation even if the ignition is switched off. After the conversation, User can tap button to switch off the unit.

### NOTE

- After the tapped button, the present mode will be muted at the same time, user can press the button to release the Mute.
- When making an outgoing call, it's not possible to CALL TRANSFER if the call is not being answered yet. It's only possible to Transfer the call to Mobile Phone after the call is being answered.
- Depending on different type of Mobile Phone, the time need for activating the CALL TRANSFER mode is different. Example Nokia Mobile Phone usually takes 3-5 seconds after tapping the button for audio transfer back or forth from Unit to Mobile Phone.

## CALL TRANSFER

### To Audio Transfer From Head Unit Back To The Mobile Phone

During the talking mode, user can tap the button to transfer the audio from the unit back to the Mobile Phone for privacy reason. The below display will be show on TFT for 3 seconds:

# AUTO ANSWER

### Auto Answer Mode

User can set this unit to automatically answer all

the incoming calls, once this function is set to

on, user do not need to tap the button to answer / accept any incoming call.

### NOTE

Please refer to the SETUP MENU Operation for more details of how to access into and operates the SETUP MENU of BLUETOOTH \_Auto Answer.

# **Bluetooth Audio Operation**

### Bluetooth Audio Streaming A2DP (Advanced Audio Distribution Profile)

User can listen to music files on an audio device on this unit if the audio device supports A2DP (Advanced Audio Distribution Profile) of Bluetooth Technology. Please read the below instruction before operating the Bluetooth Audio streaming function on this unit.

### Connecting A Bluetooth Audio **Device With This Unit**

Before using an audio device to play music on this unit, the audio device must be paired with this unit first.

- Open your Mobile Phone and switch Bluetooth to ON, and search Bluetooth device.
- "BT70" should appear in the pairing list on the Mobile Phone. User need to select "BT70" and then input the password "0000", the below display will be show on TFT:

Tap

button to confirmed the

connect.

 If the pairing is successful, the below display will be flashing on the TFT for 3 seconds. The unit will switch back to the previous mode automatically.

### TIPS

If the audio device has both HFP (Hands Free Profile) and A2DP (Advance Audio Distribution Profile), this unit will automatically pair these two profiles at the same time. For example: if a mobile phone has both HFP & A2DP profile and this mobile phone is already HFP paired with this unit, A2DP audio device pairing is not necessary. Also this paired mobile phone will be added automatically to the list of Paired Device -Audio of this unit

### Listening To Music From An Audio **Device In This Unit**

1. Connect this unit with the audio device.

### NOTE

Make sure the Bluetooth system is connecting with this unit. If the BT icon on the TFT is blinking, it means the Bluetooth is disconnected with this unit. Open your Mobile Phone or Audio device to re-connect Bluetooth again.

2. Enter into the SOURCE Menu to light up the BT Audio mode, and the BT audio will appears on the TFT.

### IMPORTANT

To listen to Bluetooth audio streaming from the audio device, user MUST change the mode to BT audio first. Any other mode of this unit is not able to activate the Bluetooth audio streaming (A2DP) function.

### NOTE

In Bluetooth Audio Mode, if there is no audio device connected with this unit, the TFT will show BT audio

The unit will search for an audio device for 20 seconds. If there is no device found. the screen will display "NO DEVICE"

BT audio 3. Once in the mode. user can use the audio device to start playback via Bluetooth wireless with this unit.

### NOTE

When you change to Bluetooth Audio mode, some audio devices will automatically start playback. Some phones may require you to choose 'Media Player' mode on your phone.

If the auto playback is not supported on the audio device, please refer to the instruction manual for the audio device on how to operate music playback via Bluetooth wireless technology.

### Operating an audio device with this unit AVRCP (Audio Video Remote Control Profile)

This unit can perform the following operations when the connecting Audio device supports AVRCP (Audio Video Remote Control Profile) only if the Audio device supports AVRCP.

 Start playing - Every time the user switches to **BT audio** mode, this unit will automatically send a "PLAY" command via AVRCP to the audio device to command the auto start playing song in the audio device.

### NOTE

The PLAY command may differ depending on the Audio device. If the Audio device is not able to auto start playing after changing mode into **BT audio** mode, user may need to operate the PLAY mode on the audio device to start the song playback.

- 2. Track up / down by pressing the Track up / down buttons on this unit.
- 3. Pause/Play by pressing the Pause / Play button on this unit.
- 4. Volume up/down by pressing the volume up / down on this unit.
- 5. Audio Mute by pressing the Mute button on this unit.

Stop playback - by changing mode into any other mode of this unit.

### NOTE

The AVRCP operation may differ depending on the audio device.

# Handsfree Phoning While Bluetooth Audio Streaming

If the connecting playback audio device is a mobile phone, all the hands free function is still available under the Bluetooth audio streaming, like the answering incoming call, making an outgoing call, etc.

### Disconnecting An Audio Device With This Unit

User can close the Bluetooth Audio connection by disconnecting with the audio device on the Mobile Phone.

### NOTE

For more detail and information on disconnecting with the unit, please refer to the DISCONNECTION section.

# Troubleshooting

Before going through the check list, check wiring connection. If any of the problems persist after check list has been made, consult your nearest service dealer.

Symptom	Cause	Solution
No power	The car ignition is not on.	If the power supply is properly connected to the car accessory terminal, switch the ignition key to "ACC"
	The fuse is blown.	Replace the fuse.
Disc cannot be loaded or ejected	Presence of CD disc inside the player.	Remove the disc in the player, then put a new one.
	Inserting the disc in reverse direction.	Insert the compact disc with the label facing upward.
	Compact disc is extremely dirty or defective disc.	Clean the disc or try to play a new one.
	Temperature inside the car is too high.	Cool off or until the ambient temperature returns to normal.
	Condensation.	Leave the player to off for an hour or so, then try again.
No sound	Volume is in minimum.	Adjust volume to a desired level.
	Wiring is not properly connected.	Check wiring connection.
The operation keys do not work	The built-in microcomputer is not operating properly due to noise.	Press the RESET button. Front panel is not properly fixed into its place
Sound skips.	The installation angle is more than 30 degrees.	Adjust the installation angle to less than 30 degrees.
	The disc is extremely dirt or defective disc.	Clean the compact disc. Then try to play a new one.
The radio does not work.	The antenna cable is not connected.	Insert the antenna cable firmly.
The radio station automatic selection does not work.	The signals are too weak.	Select a station manually.
ERROR	Mechanism Error	Press the eject button to correct the problem. If the error code does not disappear, consult your nearest service dealer.
Disc Error	Maybe disc dirty / disc scratched /disc upside down.	Replace the disc.

If at any time in the future you should need to dispose of this product, please noted that: Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your local Authority or retailer for recycling advice. (Waste Electrical and Electronic Equipment Directive).
